## About Us

Aapki Apni Pahchan Bhartiya Shakti Santhan (ApniPahchan) is a nonprofit organization started in Feb 2013 and registered in Nov 2015 to work for betterment of Society in the field of Education, Women Empowerment, Child Protection, Health & Hygiene awareness, Skill Development and Employment Assistance so that we can build a strong nation of well educated, healthy and rich people.

### **Quality Education –**

“Education is the most powerful weapon we can use to change the world” but in India despite lot of budget allocation by Government 35% population lacks basic literacy. More than 50% children drop out of the schools at primary level, majority of the drop-outs coming from the population segment living below subsistence level. Hardly 7 out of 100 youths in the age group of 17-23 years get an opportunity for higher education.

We are running some basic literacy programs to improve literacy rate and helping bright students of BPL category to get higher education at nominal cost.

### **Women Empowerment-**

“There is no tool for development more effective than the empowerment of Women”. Creation of an environment for women where they can make decisions of their own for their personal benefits as well as for the society has become a burning issue all over the world including India since last few decades. Rape and molestation cases are making situation worst.

We are conducting personality development, self-defense and legal awareness workshops from time to time so that women can Ancash opportunity and grow further.

### **Child Protection –**

A Child is an uncut diamond, it is easy to build up a child than it is to repair an adult. In India there are lot of Laws to protect child and lot of child welfare schemes then also 40% prostitutes are of school going age, More than 40 Lac children are in child labor and 1.2 lac are in hazardous jobs.

We are conducting workshops not only for children but for parents also to tell them future building and protection tricks which help children to save themselves in extreme situation.

### **Skill Development-**

No matter how talented you are, your talent will fail you, if you are not skilled. India has world's largest youth population despite having smaller population than china i.e. more than 35 crore (350 million) people are of 10 to 24 age group then also we are in stress because youth are not getting enough jobs and a large chunk is unemployed which is the root cause of crimes in India.

We are trying to help people with variety of skill development programs, not only connecting youth with different government programs (like NDML and NSDC) but also conducting workshops for the same.

### **Health & Hygiene Awareness-**

Health is Wealth. The "Health and Hygiene" initiative by Aapki Apni Pahchan Bhartiya Shakti Sangthan aims to empower communities with essential knowledge about personal health and hygiene. The program focuses on promoting healthy habits, cleanliness, and access to basic healthcare services, particularly in underserved areas.

In parallel, the organization champions the "*Promotion of Outdoor Sports*" initiative to encourage physical fitness, teamwork, and overall well-being. By organizing sports events and providing resources for outdoor activities, the NGO seeks to foster a healthy, active lifestyle and strengthen community bonds.

### **Employment Assistance-**

An unemployed existence is a worse negation of life than death itself. In India employment is uneven and weak, due to growing economy we have lot of employment opportunities but most of youth doesn't get that, lack of guidance is big reason for that.

We contact companies, ask their requirement and match candidates so time taken in searching jobs can be reduced. Not only this we also guide them that how they can crack interviews.

### **National Integrity-**

Hindu – Muslim unity, Khaddar and removal of untouchability are to me the foundation of Swaraj, these are the words of Mahatma Gandhi. India is known for its diversity we are second most populous country and most populous democracy in world speaking more than 20 languages.

We are conducting cultural workshops in support of communal harmony.
